

ULTIMATE CHIRO[®]

The Ultimate Chiro[®] Massage Chair takes massage to a new level. This true Zero Gravity chair will massage away your aches and pains from your neck all the way down to your toes while your body is suspended, completely weightless, with no pressure at all on your spine. With its extra-long 135 cm SL-Track system, the intelligent massage rollers cover more of your body with one of the longest ranges available on the market today. Using a variety of massage techniques to emulate professional therapists including Shiatsu, Deep Kneading, and more, the Ultimate Chiro[®] will improve circulation, reduce pain and help to lower stress. Once you have this chair you will wonder how you ever lived without it.

ULTIMATE CHIRO®

EXTENDED MASSAGE COVERAGE

Our state of the art SL-Track Technology arises from continuous advancements made in rail engineering. The Ultimate Chiro® Massage Chair features an extra-long 135 cm SL-shaped curved rail to provide fuller coverage for a far more comprehensive massage that contours to your spine.

3D SURROUND SOUND BLUETOOTH SPEAKERS

Relax and listen to your favourite music in style, with in-built 3D surround sound speakers and Bluetooth capabilities to stream from your mobile device.

WEIGHTLESS ZERO GRAVITY MODE

The Zero Gravity function elevates your legs above the level of your heart which puts your body in a weightless position taking pressure away from your spine. This position is proven to release stress, stimulate blood flow and reduce swelling.

HEAVENLY HEAT

How do you make the best massage chair in the world even better? Add a heavenly Hot Stone Massage treatment that radiates temperatures up to 50°C, that's how. The heat will loosen up your tight muscles and allow the massage hands to penetrate deeper, into your muscles to destroy any annoying knots.

MORE CHAIR LESS SPACE

With the all new ZeroSpace technology, the Ultimate Chiro® only requires 5 cm of space between the chair and the wall behind it when it is fully reclined.

REFLEXOLOGY RELIEF

Find relief from chronic pain and swelling with the calf, ankle, and foot air cushions that compress, hold, and release pressure around your sore legs and feet. Accompanied by the latest sole roller technology, your circulation will improve every second you are in the chair.
