## FABRIC SELECTION

**VersoTela**  
Fabrics

All VersoTela fabrics come standard with a suite of high-end specifications, such as, antimicrobial coating, mold resistance, scratch resistance and fire resistance.

Our wide range of collections each boast unique properties that are carefully designed to suit every customer's needs. Whether it be built for use in a care facility, or as a functional but stylish addition to the living room, our VersoTela fabric options are sure to tick all the boxes when it comes to crafting your perfect chair.

Please get in touch with one of our friendly sales representatives for fabric samples and to find out more about which fabric is right for you.

## DESIGN

Hudson comes standard with a velcro attached back cushions. The Velcro makes it easy to clean or replace cushions on site, and can help make minor adjustments to their positions and fill.

### Hudson two-roll back

The lower back pad is made from foam and has better lower back support than the three-roll. Hudson especially suits people recovering from back surgery or who suffer from lower back pain.

## ACTIONS

### Single Motor (Wall-saver, Lift Assist)

The single motor wall saver operation of the Hudson allows the chair to move forward while the backrest reclines. This Oscar feature reduces the space that the chair occupies in the room because the reclined backrest does not hit the wall. The Lift, recline and footrest operate from one motor.

### Dual Motor (Independent Recline)

Dual motor option lets the user recline the back without effecting the footrest, allowing a greater range of comfort.
