

Portable Sensor Strip Light

The BetterLiving Portable Sensor Strip Light is a simple, convenient and portable battery operated automatic sensor light ideal for use in any low light situation.

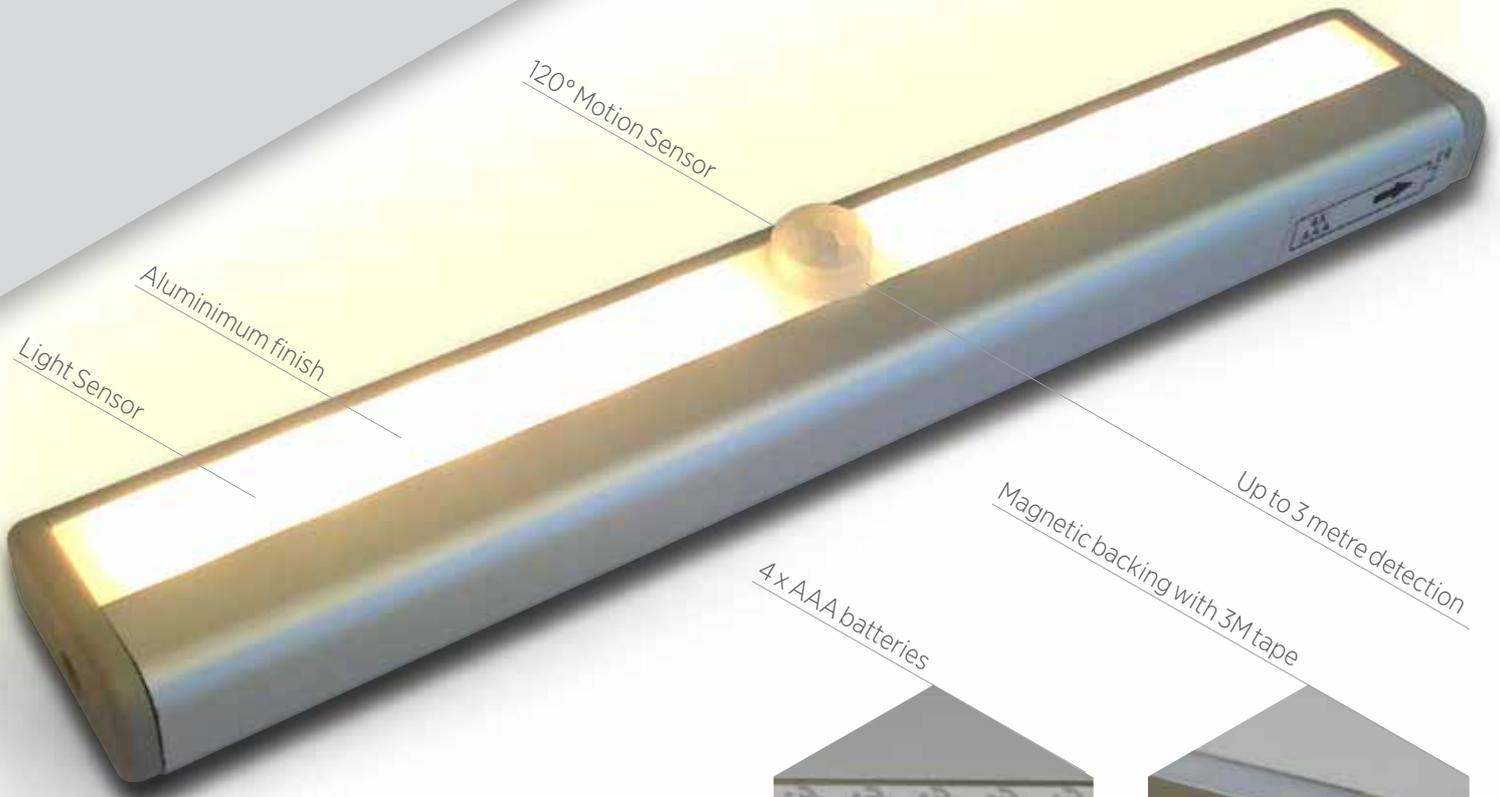

It features both motion and light detection sensors which will only trigger when motion is detected below a specific light level.

Ideal for hallways, cupboards and darkened rooms, the strip light is completely portable and features a dual purpose magnetic adhesive strip for simple and easy installation and removal on any surface.

CODE	BL0055
