Standards Compliance

Deutscher Healthcare is an Australian, family owned and operated business that has been manufacturing quality products in Victoria for over 110 years.

We utilise information and specifications from relevant Australian and International standards when designing and manufacturing our complete range of products.

The following Deutscher Healthcare products have been designed, manufactured and tested for compliance to the following standards:

IEC 60601-2-52:2010+A1:2015
AS/NZS 3200.2.38:2007
ISO 60601-1

- **WM1004** – STD single Walmsley bed
- **WM1014** – WIDE single Walmsley bed
- **WM2040** – KING single Walmsley bed
- **WMR1080** – STD single Rose II floor line bed
- **WMR1090** – KING single Rose II floor line bed
- **WMR1090BT**-KING single, bariatric floor line bed
- **WMT8080** – STD single Concord bed
- **WMT8090** – KING single Concord bed
- **WL1050** – 3 bar side rail set
- **WL1055** – 4 bar side rail set
- **WL1060** – Walmsley self-help pole with handle
- **WLR1060** – Floor line self-help pole with handle

The above items have been tested to the relevant sections of the standards utilising both, inhouse testing techniques and independently appointed companies and providers to check the compliance of our products.

We also register required products with the Therapeutic Goods Administration (TGA) and maintain all test records, information and documentation as stipulated by the TGA and our Quality Management System.
