ADJUSTABLE MATTRESS

GEL INFUSED MEMORY FOAM

The Cool Balance Support mattress is designed to help regulate your body temperature while you sleep with the Cool Gel infused memory foam. This mattress helps with pressure point relief and is perfect for use with any adjustable base. There are 2 heights (8" and 10") available for the cool balance mattress catering different mobility needs and also features high density foam box edge support making getting in and out of bed much easier for many.
