

CODE: 6200M

SOHO 300mm METAL RIM

**FEATURES:**

The 6200M analogue wall clock has a contemporary brushed aluminium rim and a convex lens that encases the edge of the dial allowing for easy viewing from all angles.

This combined with easy-to-read numerals and streamlined metal hour, minute and second hands will suit most modern interiors. The clockface measures 300mm in diameter, which can be read up to 15 meters away. The clock mechanism incorporates a quality quartz movement.

You can print off a life-size photo of this and our other analogue clocks from [www.jadcotime.com.au](http://www.jadcotime.com.au).
