

The Australian Made Oscar Health Flex Mattress has been developed to assist in providing therapeutic benefits as well as superior comfort and functionality.

Unlike other healthcare mattresses on the market, the Health Flex Mattress has the appearance of a domestic mattress. With Soft, Medium and Firm options, there is a Health Flex Mattress to suit your needs.

The Health Flex Mattress utilises Joyce HygroFlex foam, which has been tested by RMIT for its benefits.

The research conducted discovered the following:

- ✔ More effective pressure redistribution than traditional memory foams.
- ✔ Superior airflow, diffusing body heat more rapidly.
- ✔ No 'sinking feeling' that most memory foams experience.
- ✔ Generates less force, reducing friction and minimising the risk of developing pressure ulcers.
